## DETAILED ACTION

### ***Double Patenting***

1. A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

As per the pending application, claim 2 is anticipated by patented claim 1 of U.S. Patent No. 6,915,170 since the claims are co-extensive in scope. There does not appear to be any discernable difference between either of the claims that would change or otherwise affect the overall scope of the claimed invention.

The same rational is equally applied to pending claim 3 and patented claim 2 of U.S. Patent 6,915,170.

The same rational is equally applied to pending claim 4 and patented claim 3 of U.S. Patent 6,915,170.

The same rational is equally applied to pending claim 5 and patented claim 4 of U.S. Patent 6,915,170.

The same rational is equally applied to pending claim 13 and patented claim 5 of U.S. Patent 6,915,170.

The same rational is equally applied to pending claim 14 and patented claim 6 of U.S. Patent 6,915,170.
